**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Being small business consumers, we need competition from smaller providers, like Sonic, in line with Antitrust protection for the general consumers. Broadband is critical to our home business, as well as to students doing homework at home.

Without competition, monstrous companies like and especially AT&T will be able to name its high price as consumers are limited from other choices of providers.

One of the most important functions for FCC is to provide consumers the protection from such high pricing they have to pay for the out-rageous profit margin to giants like AT&T having a history of screwing its consumers, with Comcast, Xfinity, and now the beginning for DirecTV.

We pray that you good people will protect the small and weak so that giants will not be able to get away with it. Thank you.

Tom Chang
